The Canadian Attaches Hit Into Macdonald's Policy—Details of the Frog Lake Massacre.

Washington, Dec. 13.—[Special.]—The Metrose has just sent out of Frog Lake to Montreal, and many more police and the militia, with the Indians they have, are hastened there. They are well armed and provisioned, and are both up-to-date parties. The Queen have given them instructions to act as befitted to the Crees. The Colonel Secretary, Mr. Scrimger, under the Prince, M. C., not doubtful the safety of the Indians, and the Indians are very peaceably having been injured at that point there have been the case of Indians. There were no rumors heard here last night, and were to pass that action this evening. The Commissioner's telegrams, with eighty horses, men at Bridge's Station two nights and night from Calgary tonight. The Seventh Battalion from London were at Quebec last night. It is said that the are doing the northern shore of Lake Superior a getting bad, and it will succeed in getting the militia to the country of a considerable of Indians and Indian parties. A band of Crees lately passed near there two days ahead, although going west, all armed after and to Indian town with them. They were not following any of the regular trails. The report that the Indians are settled after the fire, Mr. Dewdney and the commission to confirm or over with the white people brought him and soldiers to the action gives great satisfaction to both the troops and people. A general knowledge of the Indian character is displayed, and the great a share of the credit for the success of the expedition is due to the Commissioner.

There were 276 deaths in the city last week, being 1,200 per 1,000 of population, or an annual rate of 30.71. In the corresponding weeks of 1883 and 1884 the rate was 29.12 and 31.2 deaths per thousand respectively.

Judges Moran and Horan this morning will announce cards in the criminal court for the rest of the term. Each judge will take his own docket with him and continue such as may remain pending when he began the opening of this month.

A meeting of representative Citizens of the city will be held at the rooms of Austin Corbin, Sherman House building, to-day at 2 o'clock p. m., for the purpose of considering the advisability of the Illinois Manufacturers' Bureau. A charter has recently been secured.

His left foot was cut off, and he was otherwise injured about the head. He was taken to the County Hospital, where he will die before noon. The accident occurred last night.

A correspondent suggests that the gallant gentlemen of this city might do well to turn their attention to a simple question. He says that the census return of this month is considered by many cities as a consideration for the apportionment of the street car fares. He says that if cars are run on a basis of 5 cents for each passenger, and 5 is taken as a average fare for the use of a horse in the service of the people.

A meeting of the Metis Fishing Association was held last night at No. 151 Dearborn street. It was reported that the association had agreed to act in concert with the sanitary authorities and "seek" all nuisances that may pollute the water. The commissioners now have under consideration the question of the appointment of a corps of deputies who will act with the police. Commissioner Kay was selected as the representative of the association to act before the Board of Health. Its object is to have the city authorities enforce the ordinances relative to the matter. The association will also endeavor to secure the passage of a law concerning the fishery for the protection of the waters of the lake. A charter has recently been secured.

"Royal Baking Powder is undoubtedly the purest and most reliable."—Prof. Mott, Government Chemist.

The fact that Royal Baking Powder is, in all respects, the best baking powder offered to the public has been established beyond question.

Prof. H. A. Mott, when employed by the U. S. Government to analyze the various baking powders of the market to determine which was the best and most economical, after an extended investigation, reported in favor of the Royal, and it was adopted by the Government use.

Prof. Mott has continued his examinations of baking powders until at the present day, and now affirms it as his deliberate judgment, arrived at after most thorough research and a careful examination of the principal brands of the market, that the Royal is undoubtedly the purest and most reliable baking powder offered to the public:

OFFICE DR. H. A. MOTT, CHEMISTRY CORNER,
41 BROADWAY, NEW YORK, Feb. 14, 1885.

* * * The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for them and the U. S. Government.

I will go still further and state that, because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportion of the acid and the method of its preparation, THE ROYAL BAKING POWDER IS UNDOUBTEDLY THE PUREST AND MOST RELIABLE BAKING POWDER OFFERED TO THE PUBLIC.
